Wonderbox.tv – Reinstalling Kodi

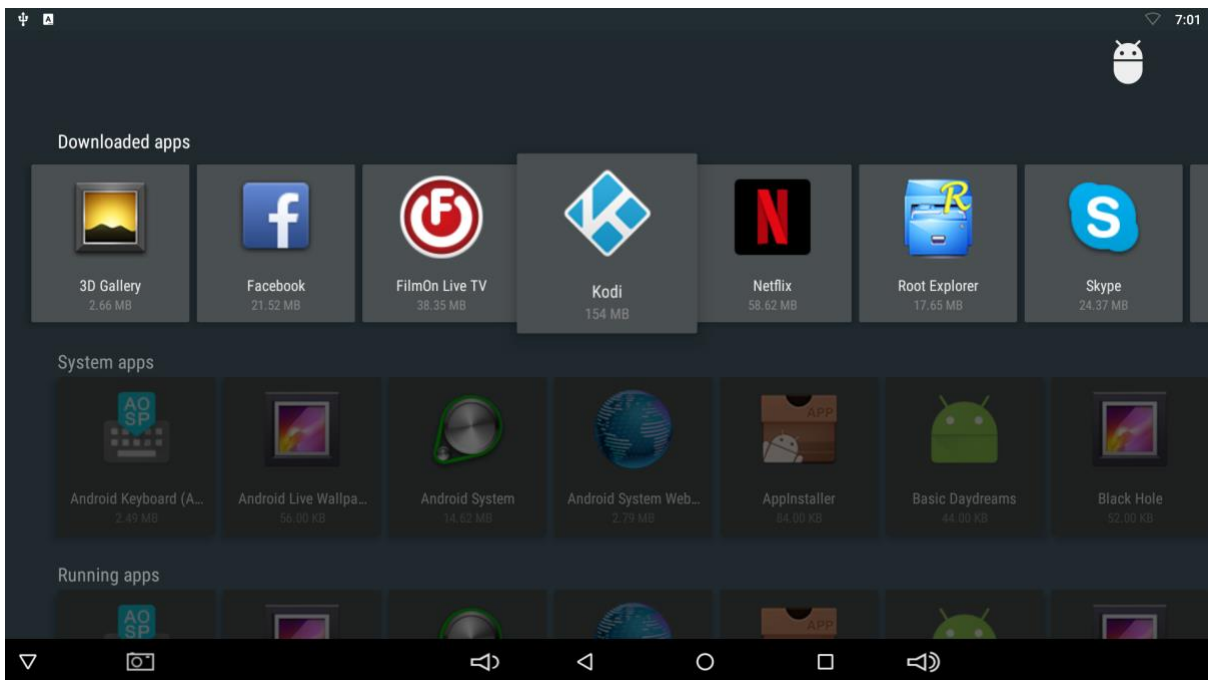

This is a general guide for reinstalling Kodi. **Note: All Android Smart TV Boxes retailed by Wonderbox.tv already have the latest official versions of Kodi and the Kodi fork WBMC installed.**

Android Settings menus vary per the device and version of Android. The following screenshots and descriptions are typical.

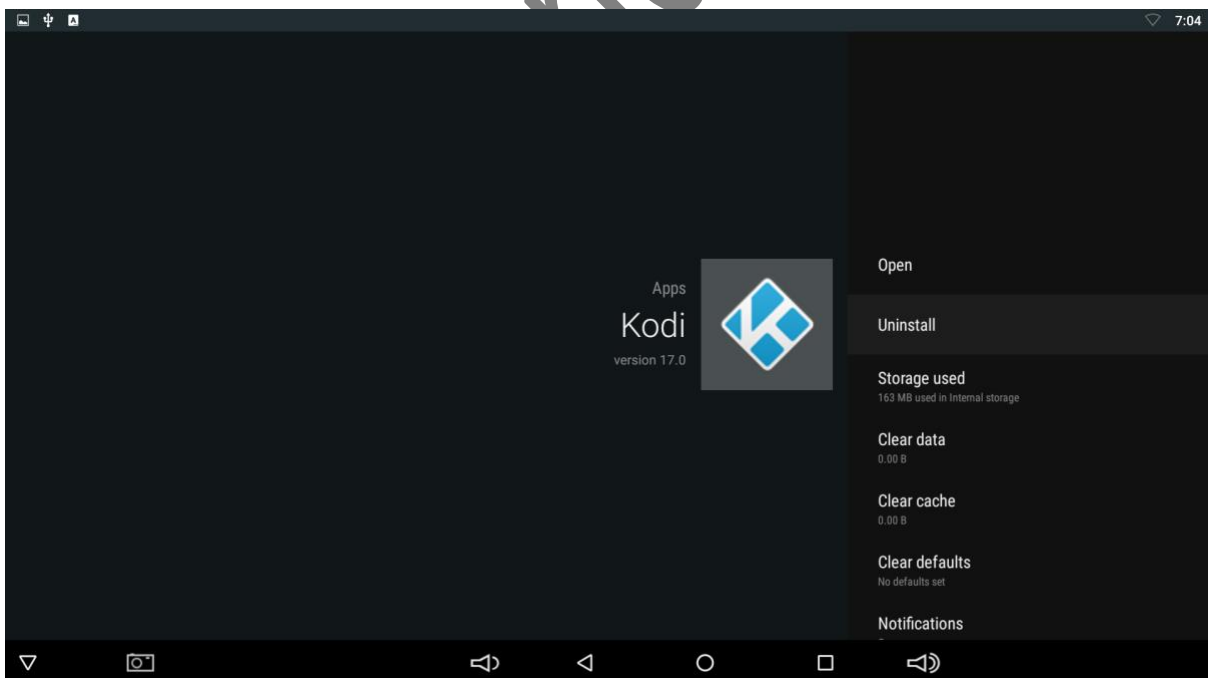

From the Android home screen, go to Settings, (then Advanced or Other, then More settings, depending on the menu), then Apps...

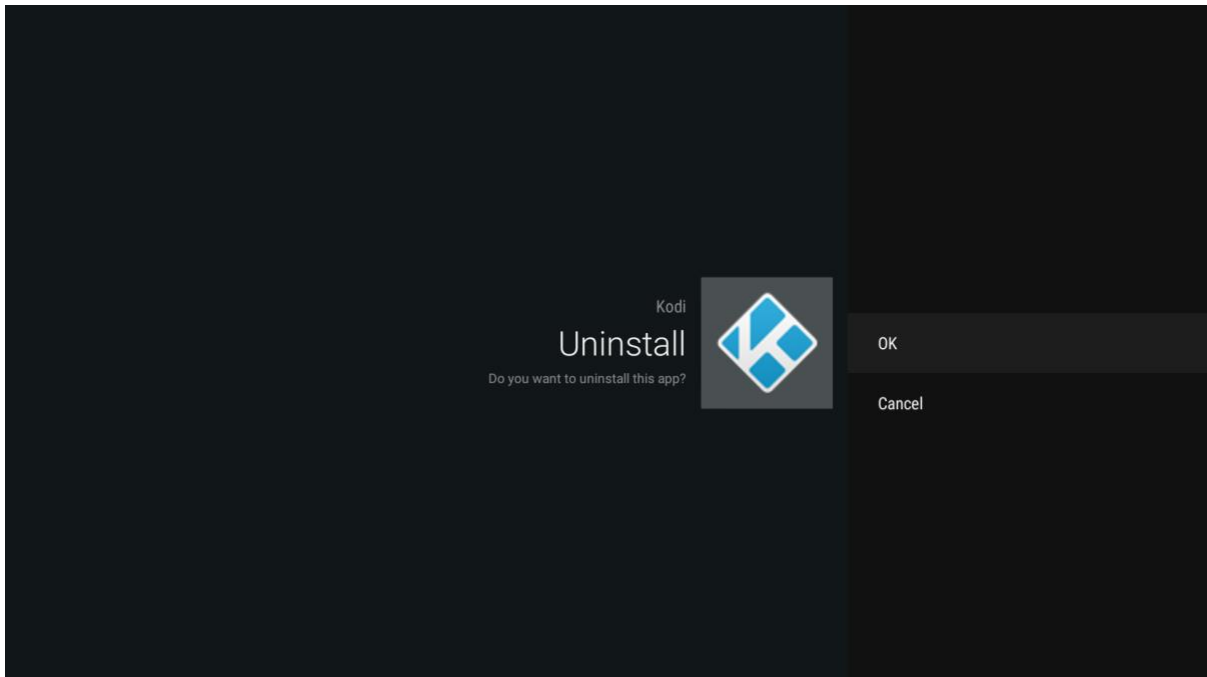

...Downloaded apps then Kodi (or KD Player).

Click Uninstall...

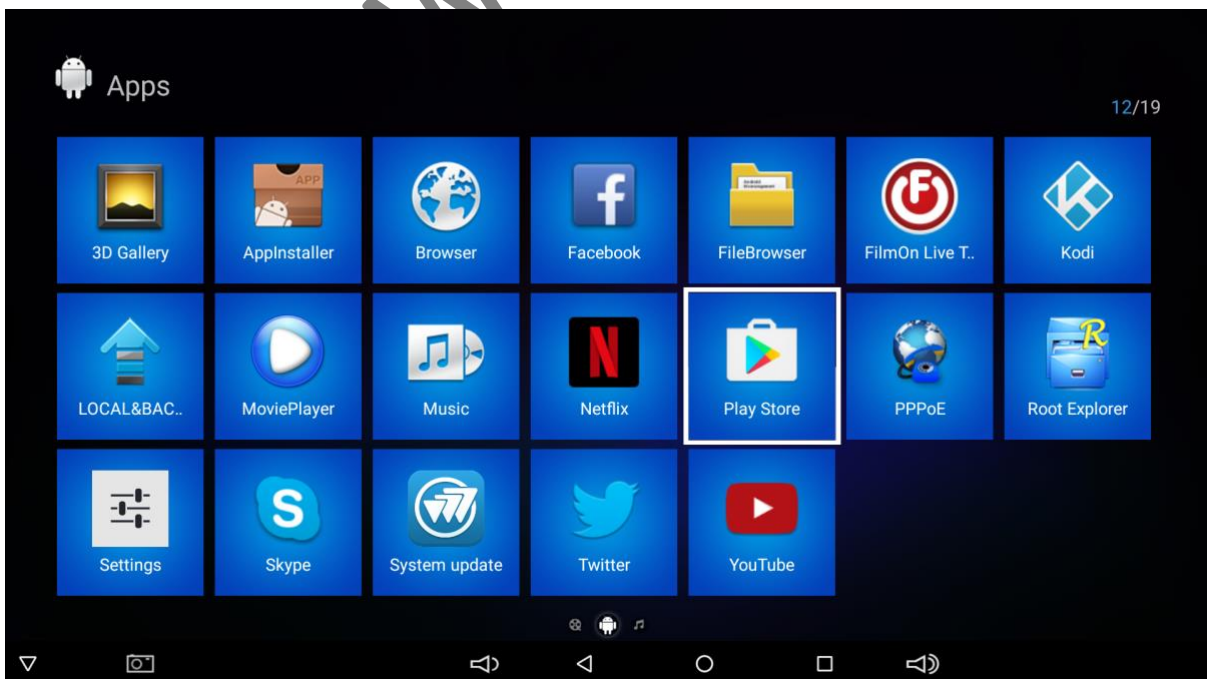

...and OK.

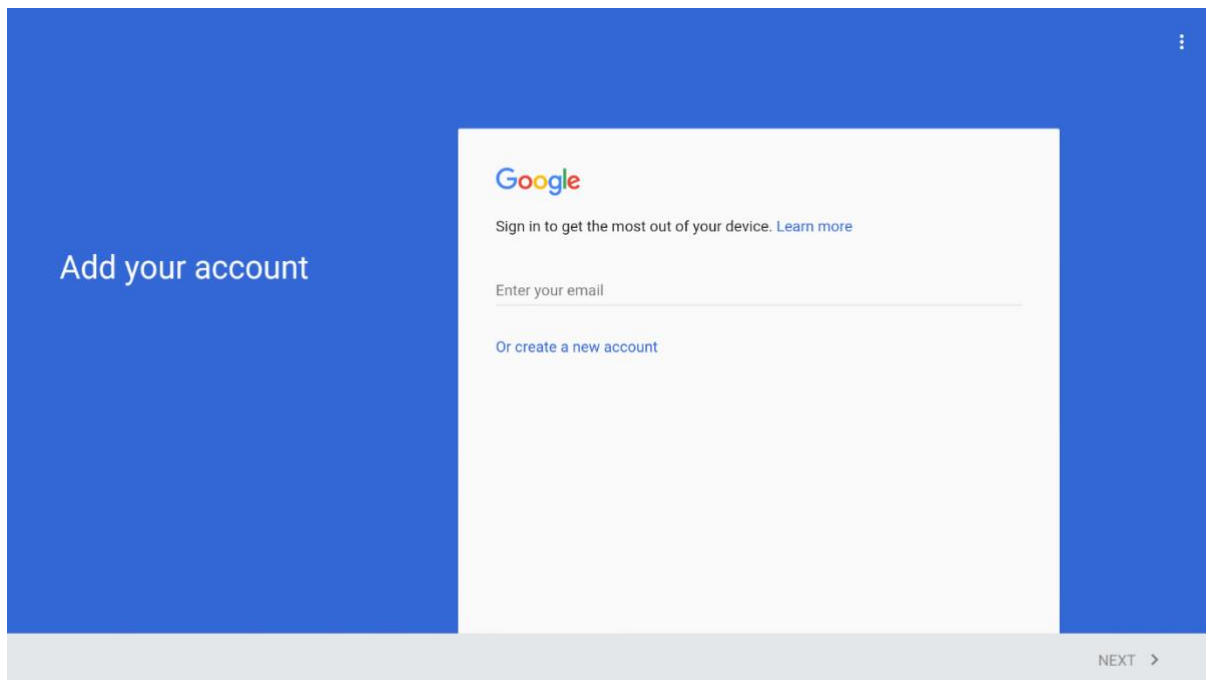

Click the Home Button on your remote.

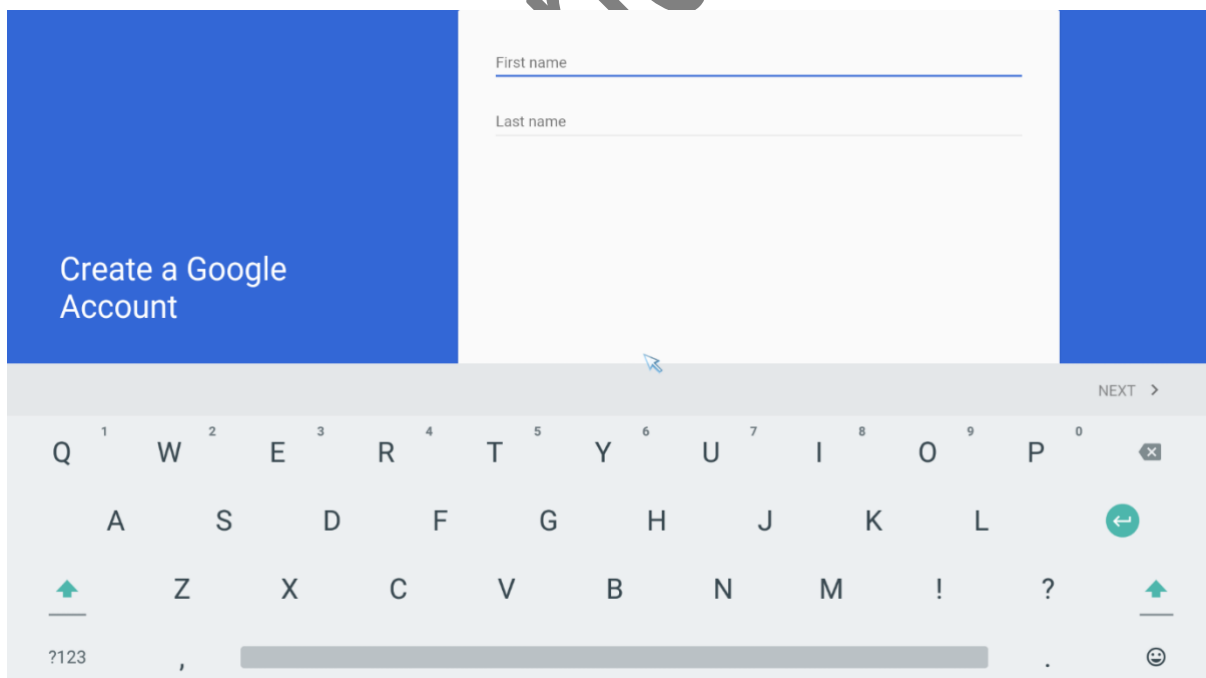

One of the easiest ways to install Kodi is via Google Play Store which can be found on your Android home screen and/or in Apps. Click on Play Store.

You need a Gmail account to sign in. Either use an existing account...

...or create an account directly from Play Store.

Follow the prompts! Once signed in, select Apps, search for, download and install Kodi.

Kodi and other Android apps can also be downloaded from the Wonderbox.tv Downloads page and many other places. Please visit www.wonderbox.tv/downloads/.

If using the web browser on your device and once the downloads are complete, launch File Browser or File Manager (in Apps), select Local Disk, then Downloads, click on each of your downloaded APK files and follow the prompts to install.
